Changing the oil in your car

CAUTION:

Keep your garage neat by organizing the things you keep in the garage.

Once every 6000 kilometers or three months, change the oil in your car. This will help keep the engine in good condition.

1. Remove the old oil filter.
2. Drain the old oil.
3. Install a new oil filter and gasket.
4. Add new oil to the engine.
5. Check the air filter and replace or clean it.
6. Top up the windshield washer fluid.

Washing the car

CAUTION:

Keep your car looking great by washing it regularly.

1. Move the car onto the driveway.
2. Attach the water hose to a spout and pull the free end over to the car.
3. Fill a bucket with soapy water.
4. Use a sponge to apply the soapy water to the car and scrub off the dirt.
5. Rinse the car by spraying clean water from the hose.
6. Dry the car using a dampened chamois.

Spray painting

The garage is a good place to spray paint.

1. Move the car out of the garage to avoid getting paint on it.
2. Place newspaper, cardboard, or a drop-cloth on the garage floor.
3. Place the object to be painted on the covered area.
4. Follow the directions on the paint can to paint the object.
5. Let the paint dry thoroughly before you move the object.

Shovelling snow

CAUTION:

Keep your driveway and sidewalks clear of snow and ice by shovelling after any snowfall.

1. Get the shovel out of the garage
2. Shovel the driveway, starting at the garage door and working out to the street.
3. Shovel the sidewalk in front of your house.
4. Shovel the walk to your front door.

Taking out the garbage

1. Find out from the town what day of the week garbage is collected in your neighborhood.
2. The night before collection, place the garbage cans on the curb.
3. After the garbage has been collected, move the cans back into your garage.
